---	---	---	--	---

Answer Key
Skill 2 - 19E

Directions: Color the hexagons yellow and the trapezoids blue.

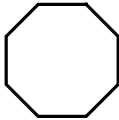

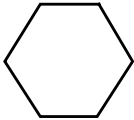

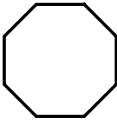

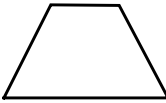

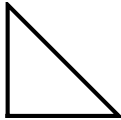

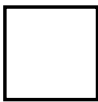

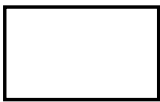

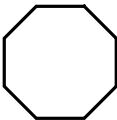

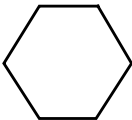

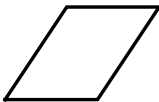

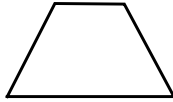

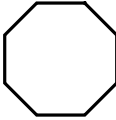

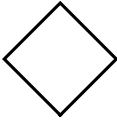

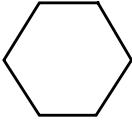

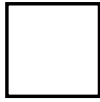

hexagon (6 sides)		trapezoid (4 sides)	
-------------------	---	---------------------	---

Note: Shapes are labeled yellow and blue to save colored ink. Several shapes other than the trapezoid have 4 sides in this skill. A trapezoid is defined as having 1 pair of parallel sides. All other shapes in this skill with 4 sides have 2 pair of parallel sides. For second grade the student only needs to identify a trapezoid and hexagon as shown above.
