

Name _____

Date _____

Division

Skill 3 - 16C

Review Mean

Directions: Find the mean for each set of numbers.

Example

9,4,7,3,8,5	Add the numbers. $9 + 4 + 7 + 3 + 8 + 5 = 36$ Divide by the number of addends. $36 \div 6 = 6$	The mean is <u>6</u>
-------------	---	-------------------------

1.

10, 9, 7, 8, 11		The mean is <u> </u>
-----------------	--	--------------------------------

2.

5, 4, 3, 6, 7		The mean is <u> </u>
---------------	--	--------------------------------

3.

5, 3, 1, 4, 7		The mean is <u> </u>
---------------	--	--------------------------------

4.

4, 3, 3, 1, 4		The mean is <u> </u>
---------------	--	--------------------------------

Name _____

Date _____

Division

Skill 3 - 16C

Review Mean

Directions: Find the mean for each set of numbers.

5.

6, 6, 7, 8, 4, 5		The mean is _____
------------------	--	----------------------

6.

2, 3, 0, 2, 3, 2		The mean is _____
------------------	--	----------------------

7.

10, 8, 2, 4, 9, 7, 9		The mean is _____
----------------------	--	----------------------

8.

11, 0, 13, 16, 6, 8		The mean is _____
---------------------	--	----------------------

9.

5, 4, 0, 7, 0, 2		The mean is _____
------------------	--	----------------------

10.

10, 5, 7, 8, 8, 4		The mean is _____
-------------------	--	----------------------

Answer Key
Skill 3 - 16C

- | | | | |
|----|------------------------|-----------------|---------------|
| 1. | $10, 9, 7, 8, 11 = 45$ | $45 \div 5 = 9$ | The mean is 9 |
| 2. | $5, 4, 3, 6, 7 = 25$ | $25 \div 5 = 5$ | The mean is 5 |
| 3. | $5, 3, 1, 4, 7 = 20$ | $20 \div 5 = 4$ | The mean is 4 |
| 4. | $4, 3, 3, 1, 4 = 15$ | $15 \div 5 = 3$ | The mean is 3 |

Page 2

- | | | | |
|-----|-----------------------------|-----------------|---------------|
| 5. | $6, 6, 7, 8, 4, 5 = 36$ | $36 \div 6 = 6$ | The mean is 6 |
| 6. | $2, 3, 0, 2, 3, 2 = 12$ | $12 \div 6 = 2$ | The mean is 2 |
| 7. | $10, 8, 2, 4, 9, 7, 9 = 49$ | $49 \div 7 = 7$ | The mean is 7 |
| 8. | $11, 0, 13, 16, 6, 8 = 54$ | $54 \div 6 = 9$ | The mean is 9 |
| 9. | $5, 4, 0, 7, 0, 2 = 18$ | $18 \div 6 = 3$ | The mean is 3 |
| 10. | $10, 5, 7, 8, 8, 4 = 42$ | $42 \div 6 = 7$ | The mean is 7 |
