# Measurement

## Skill 3 - 22D

### Metric Units: Mass

**Directions:** Choose the best estimate.

1,000 grams = 1 kilogram

|   |   |
|---|---|
| 1.<br><br>113 g or 113 kg?   | 2.<br><br>5 g or 5 kg?   |
| 3.<br><br>15 g or 15 kg?    | 4.<br><br>1g or 1kg?    |
| 5.<br><br>130 g or 130 kg? | 6.<br><br>4 g or 4 kg? |
| 7.<br><br>1 g or 1 kg?     | 8.<br><br>5 g or 5 kg? |

# Measurement

## Skill 3 - 22D

### Metric Units: Mass

**Directions:** Which unit of measure would you use to measure each.

1,000 grams = 1 kilogram

9. Which unit of measure would you use to find the mass of this rose?

- A. kilogram      C. gram  
B. kilometer    D. centimeter

10. Which unit of measure would you use to find the mass of this dog?

- A. centimeter    C. milliliter  
B. liter          D. kilogram

11. Which unit of measure would you use to find the mass of this dolphin?

- A. meter          C. gram  
B. centimeter    D. kilogram

12. Which unit of measure would you use to find the mass of this surfboard?

- A. liter            C. kilogram  
B. milliliter      D. centimeter

13. Which unit of measure would you use to find the mass of this pencil?

- A. meter          C. kilometer  
B. gram          D. centimeter

14. Which unit of measure would you use to find the mass of this quarter?

- A. centimeter    C. gram  
B. liter          D. kilogram

Answer Key  
Skill 3 - 22D

- |          |         |         |         |
|----------|---------|---------|---------|
| 1. 113 g | 2. 5 kg | 3. 15 g | 4. 1 kg |
| 5. 130 g | 6. 4 kg | 7. 1g   | 8. 5 kg |
| 9. C     | 10. D   | 11. D   | 12. C   |
| 13. B    | 14. C   |         |         |
