

Geometry

Skill 3 - 24F

Area

Directions: Find the area. Write your answers on the blank lines.

1.

**EXAMPLE**

Area of a rectangle - Multiply the rows by the number in each row.

$$\underline{4 \times 5 = 20 \text{ square units}}$$

2.

**EXAMPLE**

$$\underline{4 \times 3 = 12}$$

$$\underline{12 + 4 = 16 \text{ square units}}$$

3.

area = _____ square units

4.

area = _____ square units

5.

area = _____ square units

6.

area = _____ square units

Geometry

Skill 3 - 24F

Area

Directions: Find the area. Write your answers on the blank lines.

7.

area = _____ square units

8.

area = _____ square units

9.

area = _____ square units

10.

area = _____ square units

11.

area = _____ square units

12.

area = _____ square units

13.

area = _____ square units

14.

area = _____ square units

Answer Key
Skill 3 - 24F

1.

EXAMPLE

Area of a rectangle - Multiply the rows by the number in each row.

$$\underline{4 \times 5 = 20 \text{ square units}}$$

2.

EXAMPLE

$$\underline{4 \times 3 = 12}$$

$$\underline{12 + 4 = 16 \text{ square units}}$$

3.

$4 \times 3 = 12$
(number of rows times
the number in each row)

12 plus the 2 yellow
square units = 14

area = 14 square units

4.

$$4 \times 4 = 16$$

area = 16 square units

5.

$$3 \times 3 = 9$$
$$9 + 2 = 11$$

area = 11 square units

6.

$$4 \times 2 = 8$$
$$8 + 4 = 12$$

area = 12 square units

Answer Key
Skill 3 - 24F

7.

$$4 \times 2 = 8$$
$$8 + 3 = 11$$

area = 11 square units

8.

$$3 \times 2 = 6$$
$$6 + 2 = 8$$

area = 8 square units

9.

$$3 \times 3 = 9$$
$$9 + 2 = 11$$

area = 11 square units

10.

$$3 \times 3 = 9$$

area = 9 square units

11.

$$3 \times 5 = 15$$
$$15 + 2 = 17$$

area = 17 square units

12.

$$3 \times 6 = 18$$

area = 18 square units

13.

$$2 \times 5 = 10$$
$$10 + 2 = 12$$

area = 12 square units

14.

$$2 \times 3 = 6$$
$$6 + 2 = 8$$

area = 8 square units
