Area: Skill 5 - 22C

Area of Parallelograms Area is the number of square units needed to cover the surface inside of a figure.

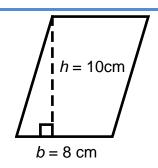

To find the area of a parallelogram multiply the base times the height.

The formula is: $A = b \times h$ where b is the base and h is the height.

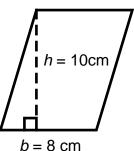

This picture of a parallelogram shows the base and height labeled.

This picture shows the dimensions of the parallelogram. The base = 8 cm and the height = 10 cm.

Find the area of the parallelogram.

Area = base times the height.

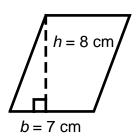

$$A = 8 \times 10$$

$$A = 80 \text{ cm}^2$$

The area is 80 cm²

Directions: Find the area of each figure. The first one is done for you. Write your answers like the answer in problem number 1 below.

1.

$$A = b \times h$$

 $A = 7 \times 8$
 $A = 56 \text{ cm}^2$

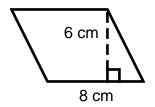

the area is _____

2.

12 cm

the area is _____

3.

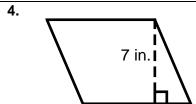

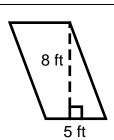

the area is _____

Area: Skill 5 - 22C

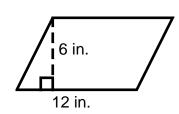

Area of Parallelograms

Directions: Find the area of each figure.

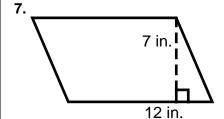

6.

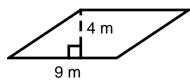

the area is _____

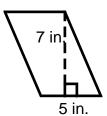

the area is _____

the area is _____

11.

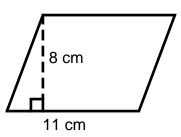

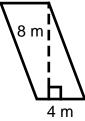

the area is _____

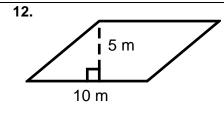

the area is _____

the area is _____

10.

the area is _____

the area is _____

the area is _____

Answer Key Skill 22C Grade 5

1. 56 cm² 2. 72 cm²

3. 48 cm² 4. 63 in.² 5. 40 ft²

6. 72 in.² 7. 84 in.²

8. 36 m²

9. 35 in.² 10. 88 cm²

11. 32 m² 12. 50 m²
