

Name _____

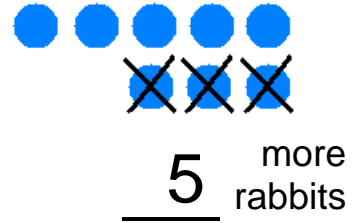

Date _____

2-3D: Subtraction

Problem Solving

Directions: Read the paragraph below. Draw a picture of the details to help solve.

Dylan saw 8 rabbits.
Bob saw 3 rabbits.
How many more rabbits did Dylan see than Bob?

1.

Alicia saw 15 seashells on the shore.
Maria saw 6 seashells.
How many more seashells did Alicia see than Maria?

_____ more seashells

2.

Barry saw 6 elephants at the zoo.
Carlos saw 2 zebras.
How many more zoo animals did Barry see than Carlos?

_____ more zoo animals

3.

Michele saw 10 ducks.
Angelo saw 5 ducks.
How many more ducks did Michele see than Angelo?

_____ more ducks

Name _____

Date _____

2-3D: Subtraction

Problem Solving

Directions: Read the paragraph below. Draw a picture of the details to help solve.

4.

Jason saw 12 geese.
Justin saw 6 geese.
How many more geese did Jason
see than Justin?

_____ more geese

5.

Joshua saw 15 surfers.
Carol saw 9 surfers.
How many more surfers did
Joshua see than Carol?

_____ more surfers

6.

Cassie saw 16 blue jays.
Karen saw 6 blue jays.
How many more blue jays did
Cassie see than Karen?

_____ more blue jays

Name _____ Date _____

2-3D: Subtraction

Problem Solving

Directions: Read the paragraph below. Draw a picture of the details to help solve.

7.

Murphy saw 18 zebras at the zoo.

John saw 9 zebras.

How many more zebras did

Murphy see than John?

_____ more zebras

8.

Madeline saw 20 hawks.

Maria saw 10 hawks.

How many more hawks did

Madeline see than Maria?

_____ more hawks

9.

Ken saw 21 pelicans.

George saw 8 pelicans.

How many more pelicans did Ken

see than George?

_____ more pelicans

Name _____

Date _____

2-3D: Subtraction

Problem Solving

Directions: Read the paragraph below. Draw a picture of the details to help solve.

10.

Kayla saw 16 squirrels.
Carla saw 7 squirrels.
How many more squirrels did
Kayla see than Carla?

_____ more squirrels

11.

Sarah saw 17 pumpkins on the ground.
Sue saw 9 pumpkins.
How many more pumpkins did Sarah see
than Sue?

_____ more pumpkins

12.

Sandra saw 16 snakes at the zoo.
Martha saw 15 snakes.
How many more snakes did
Sandra see than Martha?

_____ more snake

Name _____

Date _____

2-3D: Subtraction

Problem Solving

Directions: Read the paragraph below. Draw a picture of the details to help solve.

13.

Michael saw 23 coyotes at the zoo.

Jack saw 12 coyotes.

How many more coyotes did

Michael see than Jack?

_____ more coyotes

14.

Jason saw 18 mice eating cheese.

Robert saw 9 mice eating cheese.

How many more mice did Jason

see than Robert?

_____ more mice

15.

Lisa saw 19 dolphins in the ocean.
