

Geometry Skill 4 - 20H

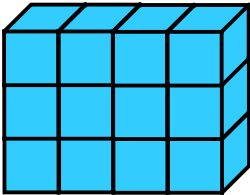

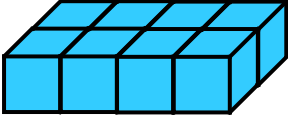

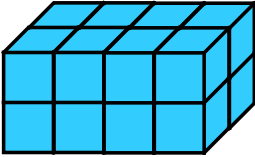

Volume

How to find the volume of a rectangular prism.

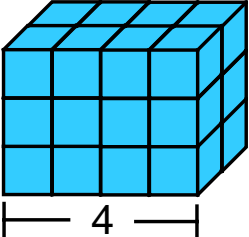

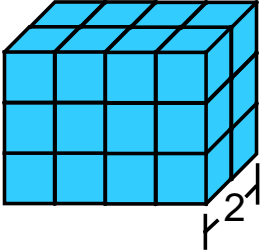

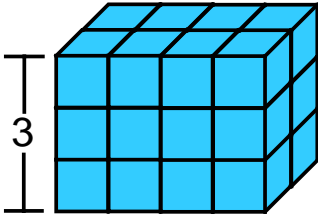

Method Number One: Count the cubic units.

 <p>1 cubic unit</p>	 <p>The volume is 4 cubic units.</p>	 <p>The volume is 8 cubic units.</p>
---	---	--

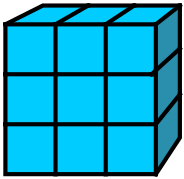

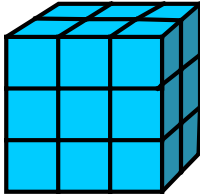

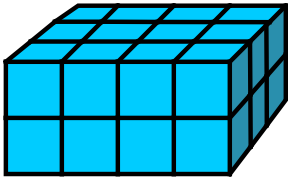

Directions: Find the volume. Fill in the blank line for each.

<p>1.</p>  <p>the volume is _____ cubic units</p>	<p>2.</p>  <p>the volume is _____ cubic units</p>	<p>3.</p>  <p>the volume is _____ cubic units</p>
--	--	--

Method Number Two: Multiply the length, width and height to find the volume.

 <p>The length is 4 cubes.</p>	 <p>The width is 2 cubes.</p>	 <p>The height is 3 cubes.</p>	<p>Multiply length times width times height.</p> $4 \times 2 \times 3 = 24$ <p>The volume is 24 cubic units.</p>
---	--	--	--

Directions: Find the volume. Count or multiply.

<p>1.</p>  <p>the volume is _____ cubic units</p>	<p>2.</p>  <p>the volume is _____ cubic units</p>	<p>3.</p>  <p>the volume is _____ cubic units</p>
--	--	--

Geometry Skill 4 - 20H

Volume

Directions: Find the volume. Count or multiply.

4.

_____ cubic units

5.

_____ cubic units

6.

_____ cubic units

7.

_____ cubic units

8.

_____ cubic units

9.

_____ cubic units

10.

_____ cubic units

11.

_____ cubic units

12.

_____ cubic units

13.

_____ cubic units

14.

_____ cubic units

15.

_____ cubic units

16.

_____ cubic units

17.

_____ cubic units

18.

_____ cubic units

19.

_____ cubic units

Answer Key: Skill 20H Grade 4

- | | | | | | | | | | |
|-----|----------------|-----|----------------|-----|----------------|-----|----------------|-----|----------------|
| 1. | 9 cubic units | 2. | 18 cubic units | 3. | 24 cubic units | 4. | 20 cubic units | 5. | 24 cubic units |
| 6. | 24 cubic units | 7. | 20 cubic units | 8. | 36 cubic units | 9. | 36 cubic units | 10. | 30 cubic units |
| 11. | 24 cubic units | 12. | 18 cubic units | 13. | 36 cubic units | 14. | 60 cubic units | 15. | 24 cubic units |
| 16. | 27 cubic units | 17. | 48 cubic units | 18. | 24 cubic units | 19. | 54 cubic units | | |
