impossible

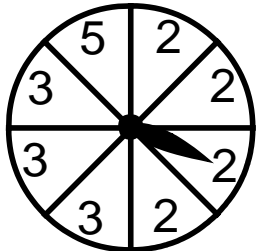

1. What is the probability that the spinner will land on each number?

land on 2, or 3?

land on 5?

land on 4?

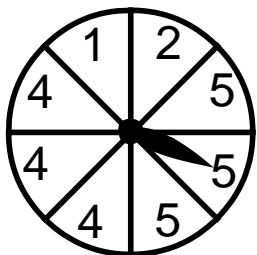

2. What is the probability that the spinner will land on each number?

land on a 2?

land on 5?

land on 2, 3, or 5?

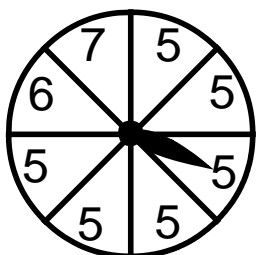

3. What is the probability that the spinner will land on each number?

land on 4 or 5?

land on 3?

land on 1?

4. What is the probability that the spinner will land on each number?

land on 6?

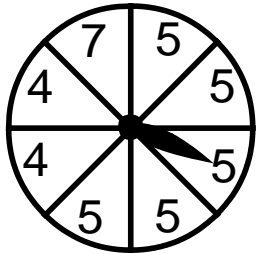

land on 5?

land on 7?

Fractions Skill 4 - 22A

Predict Outcomes

Directions: Describe the probability of each event. Write likely, equally likely, certain, unlikely, impossible. The first one is done for you.

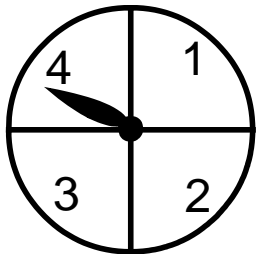

5. What is the probability that the spinner will land on each number?

land on a 5?

land on 7?

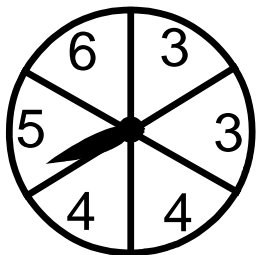

land on 8?

6. What is the probability that the spinner will land on each number?

land on 1, 2 or 3?

land on 4?

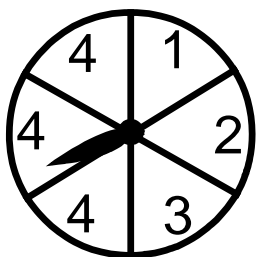

7. What is the probability that the spinner will land on each number?

land on 5?

land on 6?

land on 3 or 4?

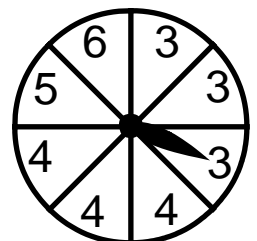

8. What is the probability that the spinner will land on each number?

land on 2?

land on 3?

land on a 4?

9. What is the probability that the spinner will land on each number?

land on a 3 or 4?

land on 5?

land on 6?

Answer Key: Skill 22A, Grade 4

1. equally likely, impossible, likely

3. equally likely, impossible, unlikely

5. likely, unlikely, impossible

7. unlikely, unlikely, equally likely

9. equally likely, unlikely, unlikely

2. likely, unlikely, certain

4. unlikely, likely, unlikely

6. equally likely, unlikely

8. unlikely, unlikely, likely
